THIS FORECAST WILL BE UPDATED AT 16:00 SAST.

SEVERE WEATHER ALERTS:

=====

IMPACT-BASED WARNINGS:

Nil.

FIRE DANGER WARNINGS:

Extremely high fire danger conditions are expected over
the Laingsburg Local Municipality in the Western Cape.

ADVISORIES:

Nil.

1. GAUTENG:

Morning fog patches in the south, otherwise partly cloudy
and cool.

The expected UVB sunburn index: High

2. MPUMALANGA:

Morning fog patches along the escarpment and in places over
the Highveld, otherwise partly cloudy and cool to cold with
drizzle along the escarpment.

3. LIMPOPO:

Morning fog and drizzle along the escarpment, otherwise
cloudy and cool to warm, becoming partly cloudy in the
afternoon.

4. NORTH-WEST PROVINCE:

Cloudy in the north at first, otherwise partly cloudy and cool.

5. FREE STATE:

Morning fog patches in the east, otherwise partly cloudy and cool.

6. NORTHERN CAPE:

Morning fog patches along the coast, otherwise partly cloudy and cool to warm but fine in the west where it will be hot in places.

The wind along the coast will be moderate to fresh southerly to south-easterly.

7. WESTERN CAPE:

Morning fog along the west coast, otherwise fine and warm to hot but partly cloudy over the south-west and south coast from the afternoon.

The wind along the coast will be moderate to fresh southerly to south-easterly but moderate southerly to south-westerly along the south coast.

The expected UVB sunburn index: Very High

8. WESTERN HALF OF THE EASTERN CAPE:

Cool in the extreme north, otherwise partly cloudy and warm to hot.

The wind along the coast will be light to moderate north-westerly, becoming south-westerly from the west, but north-easterly east of Algoa Bay.

9. EASTERN HALF OF THE EASTERN CAPE:

Cool in the extreme north-west, otherwise partly cloudy and warm to hot.

The wind along the coast will be light to moderate north-easterly.

10. KWAZULU-NATAL:

Morning fog patches over the interior, otherwise partly cloudy and cool to warm.

The wind along the coast will be moderate to fresh northerly to north-easterly.

The expected UVB sunburn index: Very High
